APTITO POS
SOLUTIONS

Introducing

An easy to use, feature rich restaurant management system of the future.

Aptito® is your all-in-one solution that provides you with the most complete package of features to help simplify the running of your business. Our digital menus presented on the iPad® are easy to customize and seamlessly integrate with our POS system and smart phone app. It's never been easier to interact with your customers, manage your restaurant remotely, and flat out increase your bottom line!

A cloud-based system designed to increase your bottom line that you can manage from anywhere.

Aptito's® plug and play restaurant management software provides everything you need to run your business, accept payments and “wow” guests. Our attractive, self-ordering digital menus make a lasting impression, increase order size and give customers something extra to remember you by.

INCREASE YOUR BOTTOM LINE

Reduced Labor Costs

Servers can serve rather than take orders and process payments, allowing them to handle twice as many tables.

Cost-Effective POS Solution

With Aptito®, you get more and pay less. Other systems on the market cost an average of 80% more and offer far fewer capabilities. Aptito® provides inventory, reservation, scheduling and payroll systems at no extra cost.

Improved Menu Management

Save money by not having to reprint menus every time you change an item or price. Easily update your menu in a matter of seconds and avoid those tacky looking write overs.

Increase Retention Rate

Customers are more likely to fill out surveys and provide feedback using our digital menus. This gives you the info needed to make the necessary adjustments to keep em coming back.

Increase Sales

Consumers will order an average of 15%-20% more with enticing, high resolution images that trigger emotional and psychological responses.

Digital Menus

Take your restaurant to the next level with our fully customizable self-ordering menus. Customers can place orders directly, request a server's attention, view nutritional info, send special instructions to the chef, and pay electronically without the hassle of flagging down a server.

MOBILE POS Solution

PRIMARY DESIGNED FOR IPHONE AND IPOD.

Provided for our Merchants for free*
Allows to perform all major functions of regular POS plus a modul for delivery drivers with additional functionality:

CALL OR TEXT THE CLIENT

FOLLOW LOCATION AND DIRECTIONS

ACCEPT PAYMENTS ON LOCATIONS AND MORE..

*at least one regular license required

KIOSK FEATURES

Aptito's unique and affordable self-order iPad Kiosks save time by creating multiple checkout points. Any orders can be routed and tracked through iPad POS system or can be sent directly to the kitchen.

IPAD KIOSK BENEFITS:

- Sales Increase - Eye-catching displays of your menu attract more foot traffic & facilitate more orders.
- Fewer mistakes & reduced strain on your staff during busy peak hours.
- Easy-to-use digital iPad menu software can be setup quickly and updated in real-time.
- Save time & money - Customers can tender payment directly using the iPad POS software that's synched with the Kiosk.

GETTING STARTED WITH APTITO® IT EASY AS 1-2-3 Register - Customize – Install = Plug and Play

STEP 1 – REGISTER - Sign up at www.aptito.com & complete the registration form

STEP 2 – CUSTOMIZE - Log in to design your menu & floor plan.

STEP 3 – INSTALL - Download Aptito® POS on your iPad®

One Size Doesn't Fit All!

Aptito's® diverse system provides you with the tools and flexibility you need right out of the box.

Whether you're a quick service restaurant, fine dining establishment or something in between, Aptito® is designed to be your one-stop shop.

Customizable Floor Layout - Simultaneous QSR & Fine Dining Mode - Integrated Payment Card Processing

OUR PHILOSOPHY IS... "WE'RE IN THIS TOGETHER"

Our feedback and suggestion system is built directly into the POS system and at your fingertips to ensure Aptito® evolves alongside your business for years to come. It's just you and us together - We own our code and continuously work to improve our application.

RELIABILITY YOU CAN COUNT ON

Aptito's® local server is a reliable tool for the offline mode, in case your internet connection is down. You will never lose a customer or sale proceeds as both local and cloud servers are synchronized as a double backup.

BUSINESS TOOLS TO SIMPLIFY LIFE

Our comprehensive reporting, payroll & inventory systems are fully customizable, exportable and allow you to exchange & combine multiple location data.
